

## Professional Elective Courses for Kinesiology Majors—2014 Catalog

### Notes:

- All professional electives must be passed with a minimum grade of “C”.
- Courses listed here are the pre-approved Kinesiology Professional Electives on the 2014 catalog. Some on the list may still need to be petitioned—i.e. a petition must be filled out by you and your faculty advisor asking for the course to count. If the course does not show up on your DARS in the “Professional Electives” section, see your KNS academic advisor.
- Courses on this list can only be used as Professional Electives if they are not being used to meet other KNS major (including department or kinesiology elective) or general education requirements. Classes do not “double count.”
- Other courses not listed here may be petitioned to count as Kinesiology Professional Electives with approval of your assigned Kinesiology faculty advisor. Check with your advisor prior to taking the course, if at possible.
- **Key:**
  - (#) = Number of Credits course is worth
  - [xxx] = Co- or Pre-requisites for the Course
  - CI = Consent of Instructor
